

Curriculum Vitae

Personal details

Maximilian Ø. Lloyd
Myrveien 41A
1406 SKI
Norway

E-mail: me@maxlloyd.no
Mobile phone: +47 90407931
Date of birth: 4/29/2000

Work experience

- 2023-06 -** NAV IT
Developer
Working on team personbruker which has responsibility for nav.no
- 2022-02 -** Current ECO AS
Frontend Lead Developer
I lead the front-end development of the market-leading charging platform for electric vehicles in Norway. My responsibilities included overseeing the development of all frontends, a white-label app, and a dashboard for charger operators. I was responsible for the overall technical vision of the codebase, managing other front-end developers, and coordinating progress with the CPO.
- 2021-02 - 2022-02** TRY APT AS
Developer
I worked at a traditional agency on a variety of unique projects. My biggest achievement was creating a new and improved version of one of Norway's largest apps, called "Slutta," which has over a million downloads, representing about 20% of Norway's population. The app helps people quit smoking, and I was primarily responsible for its development.

I also worked on-site at the Norwegian Parliament (Stortinget) and Norges Bank, developing interactive learning games.
- 2019-02 - 2021-02** Copia Holding AS
independent IT consultant
Clients: OBOS, DNB Sparebankstiftelsen, Spond, Vg.no, Aker BioMarine.
- 2017-08 - 2019-02** Auka AS
Fullstack developer
Mobile banking – Created tools for back-office operations, integrated the DIBS payment gateway, and developed a mobile payment application.
- 2016-11 - 2017-08** Good Morning
Developer
I worked as an internal developer for client projects, handling five different projects where I had sole responsibility for the technical delivery, from design brief to implementation.

Projects

- 2021-08 - 2022-02** Demo - et læringsspill for elever i videregående skole
<https://www.stortinget.no/no/Stortinget-og-demokratiet/oversikt-over-omvisninger/besok-og-formidlingstilbud-for-skoler/tilbud-for-videregaende-skoler/demo/>
- 2021-05 - 2021-08** Slutta Redesign
Implemented a redesign of slutta for helsedirektoratet
- 2019-02 - 2019-08** OBOS Styrerommet
I worked in a front-end team of 7 resources, with a total of around 15 people including designers. The project aimed to modernize a solution that gives users insight into their housing cooperative, including board activities, expenses, HSE (health, safety, environment), suppliers, and more.

The final solution can be seen here: <https://www.styrerommet.no/>
- 2016-11 - 2016-12** HTU Husleieloven
The project involved developing a complete solution from scratch, based on a design, for the Tenancy Act, which handles the entire process of renting a place to live, from contract signing to moving.

Language skills

English	Spoken : Excellent	Written: Excellent
Norwegian (Bokmål)	Spoken : Excellent	Written: Excellent
